

Freddie Ravel Pre-Event Questionnaire

1. What is the single greatest opportunity for improvement with your audience?
2. What challenges are your audience members experiencing?
3. Are there any “sensitive issues” that should be avoided? If so please explain.
4. What was memorable about past presenters (positive and negative)?
5. Who should Freddie acknowledge and thank on-stage for bringing him to your audience? Please provide their names, titles and email addresses:
6. Are there any particular pieces of music that has special meaning to your audience?
7. Will you have a photographer on-site taking non-flash, action photos of Freddie during his presentation?
8. Will you be projecting Freddie’s presentation on larger screens within the venue ?

This often provides the ability to switch between two camera angles giving your audience a unique multimedia Keynote Concert experience.

Typically, clients utilize one long range camera for standard corporate shots from the back of the room and one freestyle camera to come on stage and record Freddie and his hands while he’s playing the keyboard/piano to create a multi-angle intimate IMAG experience which plays to the strengths of his presentation.
